Additional information

Repairs and calibrations

In order to reduce order processing times and costs with you, we charge standard rates for repairs to mechanical GEDORE / RAHSOL / carolus torque wrenches. No prior information regarding charges can therefore be provided. **If a repair cannot be carried out for the all-in-one charge listed here, an estimate will be provided in advance for your approval.**

Repairs that cannot be carried out

We will inform you in writing if a repair is not possible due to age or the extent of the damage, and will discuss the further course of action with you.

Warranty claims

All complaints will be thoroughly investigated. Processing under warranty is not possible if the complaint is down to incorrect handling. In this instance, we will inform you of the repair costs in the form of an estimate. If a production or material flaw is found, or if it is not possible to establish the exact cause, the complaint will be accepted. The item will then be repaired free of charge.

Order processing times

The order processing time for mechanical torque wrenches from our own production is currently approx. 3 working days from receipt of the goods plus shipping. All electronic torque wrenches and test equipment will require a processing time of approx. 10 working days from receipt of the goods plus shipping.

Invoicing

Invoices will be produced by GEDORE Werkzeugfabrik GmbH & Co. KG, Remscheider Str. 149, 42899 Remscheid.

Express service

We offer an express service for mechanical torque wrenches with a 29.- € surcharge per wrench.

DAkS calibration by appointment

We can arrange a DAkS calibration appointment for a surcharge of 50% of the calibration prices per measuring tool.

Third-party items

Calibration of third-party items on enquiry. The processing costs will be invoiced at the level of outlay. You will receive a cost estimate for your approval.

Other items

Repairs of any other items not listed here (e.g. type 88, type 83) will be invoiced at the level of outlay. You will receive a cost estimate for your approval.

Receiving certificates

We will be pleased to provide receiving certificates for your torque wrenches. Price on enquiry.
