

THE TORQUE MULTIPLIER

SERIES LKV 50 - 54000 Nm

Popular for maintenance purposes - LKV-12

- » The smallest of the LKV series is a powerhouse that hasn't lost any of its robustness and torque power.
- » Fits in your trouser pocket if required - temperature-independent - can be used excellently as on-board tooling

Load and cold test

- » tested down to -40°C - in case of overload there is no danger for operator or device due to the predetermined breaking point (sun wheel)

LKV-12	LKV-40	LKV-40RS	LKV-60RS	LKV-80RS	LKV-100RS	LKV-120RS	LKV-550RS
Reaction arm: ST, cranked 3/4" / dB48 with hold function	ST, cranked 1" / dB68 with hold function	ST, cranked 1" / dB68 with hold function	ST, cranked 1 1/2" / dB78 with hold function	ST, cranked 1 1/2" / dB78 with hold function	LM, cranked 1 1/2" / dB78 with protective shoe and hold function	LM, cranked 1 1/2" / dB92 with protective shoe and hold function	reaction plate for welding on of special construc- tions

Especially suitable for:

- Machinery and plant construction
- Shipbuilding, aircraft construction, railway construction
- Cable cars, lifts and masts
- Heavy industry, construction sites
- Refineries, plastics industry
- Bridge construction
- Power stations of all kinds

Execution:

- Mechanical, manually operated force multiplier for controlled screw tightening and for loosening screw connections
- With non-destructive overload protection „Slipper“ for protection of the gearbox
- Optionally with straight reaction arm L-version, with adjustable reaction square, made of light metal
- Models with maximum load in the range from max. 1300 Nm to max. 54000 Nm
- With model-dependent, cranked reaction arm Z-version
- To be operated in conjunction with a torque wrench
- Output square edge with bore for impact sockets with locking pin and locking ring

- Duplication in transmission ratio 1:18, 1:22, 1:28,5, 1:39
- With two-stage planetary gear
- Accuracy: better than +/- 3% tolerance
- Housing made of high-performance aluminium

Scope of delivery:

- With cranked reaction arm Z-version
- Delivery in transport case with foam insert
- Factory calibration certificate
- Torque calculator

Technical data
