

Christmas treat to make the tool fan's heart beat faster:
The new GEDORE RED Advent Calendar for 2021 contains a complete set of socket wrenches

To shorten the wait for Christmas, **GEDORE red** is once again presenting a chock-full **Advent calendar** this year. It's the perfect alternative to the traditional chocolate version for keen workers: behind the 24 doors of the Advent calendar is a complete **34-piece socket wrench set 1/4"** in a robust case for professionals and DIYers. It will continue to be a practical and strong helper long after Christmas with screwdriving tasks both at home and on the go.

The 34 components in the Advent calendar make up a socket wrench set 1/4" in GEDORE red's customary high quality. In addition to the 2C reversible ratchet, there are hex socket bits in widths 4 to 13 mm, a socket wrench extension 100 mm and a sliding T-bar handle. The calendar also contains the extremely practical, tried-and-tested mini-bit ratchet by GEDORE red. This is supplemented by bits in the versions in-hex 4 mm, 5 and 6 mm, slotted 4 and 5.5 mm, and cross-slotted PH 1 2 2, PZ 1 2 2, TX T20 T25 and T30. A square adaptor 1.4", a bit adaptor 1/4" and a bit holder 1/4" with magnet complete the efficient socket wrench set. The slim magnetic bit holder 1/4" is self-locking and can also be machine operated.

The proven fine-toothed 2C reversible ratchet 1/4" with an oval head is also ideal for confined installation spaces. And if an even more compact tool is required, the ergonomically forged mini-bit ratchet is just the thing. This small ratchet even reaches screw connections in particularly confined areas. The set also includes adaptors so the reversible ratchet can also drive bits and the mini-bit ratchet in the opposite direction.

The individual items in the Advent calendar all have their own permanent place in the compact, robust black-and-red case in scratchproof plastic with a strong metal closure, which is also hidden behind one of the little doors. So the complete socket wrench set is always safe and well organised at all times. The individual components are also labelled in the case, which makes it easy to find the right insert or bit at all times.

The socket wrench set in the **GEDORE red Advent Calendar 2021 (R49002024, RRP €49.98 including VAT)** is a compact and flexible tool solution for countless screwdriving tasks, and the perfect gift for all tool fans. The Advent Calendar is available now while stocks last.
