

Solid and reliable partners in everyday workshop life: **WINGMAN workshop trolleys by GEDORE red with and without tools**

Both professionals and keen DIYers benefit from orderly, resilient, mobile tool storage. Tools are kept safely and close at hand in a workshop trolley. For efficient working, **GEDORE red** presents the **WINGMAN workshop trolley** in a number of versions: whether with drawers, drawers and a large compartment with gull wing doors, with or without contents, the models WINGMAN R20200007, R22041004 and R22071004 are the perfect partners for a wide range of working requirements in the workshop.

Every version of the WINGMAN by GEDORE red is made of solid sheet steel (dimensions: H 1,034 mm x W 724 mm x L 470 mm). The top made of resilient ABS plastic provides a tough and practical work surface, while the sides with square perforations offer space for additional accessories. The WINGMAN also comes with a paper roll and can holders as well as a wastepaper container. With a large steering handle on both sides as well as two swivel castors and two fixed castors (all 125 mm diameter), this nimble trolley is easily manoeuvred to its place of work.

With a load capacity of 35 kg each and measuring 570 mm x 410 mm, there is plenty of space in the drawers for the tools that are required in everyday workshop life. The full telescopic extension with a single lock allows the trolley to be used with one hand. The individual drawer lock prevents more than one drawer from being opened at a time, which ensures a particularly high level of stability. And when the WINGMAN is not required, the drawers can be locked by means of a cylinder lock.

While the version **R20200007 (special price in the current IMPULSE promotion €629.51 including VAT)** has seven drawers, the **R22041004 (WINGMAN R20200004 + range R21010004)** has four drawers and a large compartment with two lockable gull wing doors (H 386 mm x W 306 mm). This is ideal for storing e.g. very large and bulky tools.

Both the **R22071004** with seven drawers (**special price in the current IMPULSE promotion €1,117.41 including VAT**) and the **R22041004** with a large compartment and doors (**special price in the current IMPULSE promotion €993.13 including VAT**) also come with a **129-piece tool set**. This range includes a socket set 1/4" + 1/2" with accessories as well as screwdriver, pliers, hammer and chisel sets, a ratchet wrench and double open ended spanner set. The components are all safely and neatly accommodated in the Check Tool inserts in two-tone foam. At the same time, they reveal at a glance whether the tools are all safely in their place or if any are missing.

The 84-piece socket set 1/4" + 1/2" with accessories comprises in 1/4" a fine-toothed 2C reversible ratchet, square plug-in handle, hex socket wrench bits in sizes 4 to 14 mm and 4 to 13 mm 50 mm long, screwdriver bits in-hex 3 to 10 mm and slotted 5.5 and 6.5 mm, as well as screwdriver bits cross-slotted PH 1 2 3, PZ 1 2, TX in T10 to T40, a socket extension, sliding T-bar handle and a universal joint.

This set in the 1/2" version includes a further fine-toothed 2C reversible ratchet, in-hex socket bits in sizes 10 to 32 mm, in-hex screwdriver bits in 6 to 14 mm, spark plug inserts in sizes

16 and 21 mm, socket extensions 125 and 250 mm plus a sliding T-bar handle and a universal joint. An adjustable spanner completes this set.

Combination pliers, a side cutter, bent nose telephone pliers and water pump pliers 10" plus slot screwdrivers in 3 to 6.5 mm, screwdrivers crosshead PH 1 2, TX T10 to T40, an engineer's hammer 300 g, two flat chisels, one cross-cut chisel, a centre punch, a pin punch and a drift punch complete the further range.

There is also a 22-piece set with ratchet spanner sets in sizes 8 to 22 mm and double open-ended spanners in sizes 6 to 22 mm in the two equipped **WINGMAN workshop trolleys** by **GEDORE red**.
