

This all-rounder gets a firm grip on things: Elbow pipe wrench ECK-SCHWEDE-snap® 100 1.1/2 by GEDORE

Tools with a firm grip are essential in the trade. A strong pipe wrench is a necessity wherever pipes, screws, nuts or round stock are used. The universal and proven **Elbow pipe wrench ECK-SCHWEDE-snap® 100 1.1/2** by GEDORE is made to safely grip and hold any material. The combination of the special geometry of the jaw, effective three-point support and infinitely variable adjustment of the pipe wrench ensures effortless application and a firm grip – even when working in a confined space. The high-quality workmanship makes the ECK-SCHWEDE-snap® a durable and extremely practical partner that will remain reliable even under continuous loads.

The carefully considered construction of the elbow pipe wrench ECK-SCHWEDE-snap® by GEDORE ensures safe and efficient working. A self-clamping effect is achieved by the combination of the high-performance three-point grip and opposing teeth. The special geometry of the proven S-shaped pipe wrench fixes the workpiece at three points simultaneously, which prevents any slippage.

The gripping capacity of the opening is a maximum of 60 mm, and is quickly adjusted to the respective pipe or fastening element by means of the undetachable knurled screw. As the lower handle is secured by the knurled screw, the wrench no longer has to be compressed for a secure grip. Turning is achieved via the ergonomically designed upper handle, which makes it particularly comfortable to use.

The strong elbow pipe wrench designed to DIN ISO 5234, form C, is made of chrome-vanadium steel and hot-drop forged. This manufacturing method increases the strength, toughness and elasticity of the material, and allows an extremely heavy load on the tool. The special teeth are inductively hardened (51 to 56 HRC). This ensures safe use even at high torques.

As part of the current **MAGIC** promotion, the **Elbow pipe wrench ECK-SCHWEDE-snap® 100 1.1/2** by GEDORE is available at a particularly attractive price (**RRP €71.28 including VAT**).
