

GEDORE "MAGIC" is back: With many new products and highlights for industry and trade

The well-known MAGIC from GEDORE is back and appears in a completely new guise. Launching on 01.04.2021, the promotion ushers in the new GEDORE tool year: Premium tools at particularly attractive conditions are presented on 120 pages. From spanners and torque tools to installation tools, MAGIC offers a wide range of products for the everyday work of professionals in trade and industry, as well as for discerning DIY enthusiasts.

With a selection of a total of 223 tool solutions, including 22 new products and highlights, the new promotion covers a comprehensive cross-section of all GEDORE's core competences. Another new feature of this MAGIC are the clearly designed special pages, which provide detailed information on the functions and features of the highlights - quality that speaks for itself.

For example, products in the core competence of torque are among the highlights: different versions of the new TORCOFIX TF-K, covering torque ranges from 20-850 N-m (RRP from € 165.41 incl. VAT), and the new TORCOFIX SE, with models from 20 N-m up to a tightening torque of 400 N-m, (RRP from € 141.61 incl. VAT) or the electronic torque testers CAPTURE LITE (RRP from € 1307.81 incl. VAT) and Dremotest E (RRP € 1307.81 incl. VAT).

MAGIC also has a lot to offer in the way of hand tools: The GEDORE pliers spanner family, for example, is now complemented by the new VDE pliers spanner VDE 183 10 (RRP € 54.62 incl. VAT), the pliers spanner 183 10 TC (RRP € 47.48 incl. VAT) and other models.

The new MAGIC promotion with the high-quality tools "Made by GEDORE" is valid from 01.04.2021 to 31.03.2022.

About GEDORE

GEDORE is one of the world's leading partners for premium tools. Since 1919, the family-owned company from Remscheid has been manufacturing high-quality tools, special tools and customised solutions for diverse, safe and professional use in industry and trade. GEDORE combines the expertise of the entire group of companies into a strong brand that stands for exceptional quality, innovative strength, performance, reliability and outstanding service worldwide.

With more than 16,000 products, GEDORE offers one of the widest ranges of any European tool manufacturers. The range extends from extractors, torque tools, screwdrivers and workshop equipment to pliers. Attention is paid to detail in every single GEDORE tool. Qualified employees, intelligent designs, first-class materials and modern manufacturing processes are the basis of our GEDORE quality promise. 100 years of forging expertise and our striving for perfection make tools in their best form possible: tools for life.
